# WHERE SAFETY AND DURABILITY ARE STANDARD FEATURES

At Ramparts Skatepark Systems we believe that every skatepark needs to be maximized for safety and durability. We invite you to look around and see what other manufacturers offer as “options” that are always standard features on our highest quality skateparks. Items like standard underside enclosures that keep litter and people away from the important underside hardware. At Ramparts we know that guardrails are not a choice – they are critical to the safety of your park. That’s why every element of your park will be complete with guardrails - it’s a standard feature.

At Ramparts, every element of your park is custom designed. Two quarter pipes do not make a half pipe. Each element is carefully designed to fit perfectly and safely. We offer a design approach that is totally modular, whether you choose a skatepark sheeted with Skatelite or 7 Gauge galvanized steel. You choose the size, you decide on the elements and we deliver the safest, most durable and easy to maintain skatepark, that is sure to provide your community with years of safe and enjoyable recreation.

## FLEXIBLE

# COMPROMISE IS NOT AN OPTION

## Skatelite

1/4" riding surface CNC routed for precision fit, fastened to frames with stainless steel tamper resistant bolts & Nylok nuts.

## Handrails

2" (16 Gauge) inline galvanized and polyester coated tubular handrails provide safety and stability.

## Coping

Heavy-Gauge (2.375") hot-dipped galvanized coping for smooth grinding.

## Fasteners

Fasteners provide a bolt-through, tamper-resistant, smooth riding surface.

## Sub-Str8

1/2" polypropylene CNC routed for precision fit.

## Cross Brace

11 Gauge hot-dipped galvanized cross ribs welded to laser cut side profiles.

## Transition

11 Gauge hot-dipped galvanized transition plates allow for smooth transition from component to riding surface.

## Foot

(7 Gauge galvanized) Large adjustable foot levelers adjust to allow components to be installed on uneven surfaces.

## Precision Formed Frame

2" square galvanized uprights (12 Gauge), complete with 1" galvanized steel cross bracing.

1/4" x 2" Aluminum edging.

## Underside Enclosure

(11 Gauge) Conceals bottom of all elements and allows for quick structural inspection. Enclosure also prevents litter from accumulating under ramps.

FOR RAMPARTS ALL STEEL SKATEPARK LINE PLEASE NOTE THAT 7 GAUGE GALVANIZED SHEETING WITH POLYESTER POWDER COATED FINISH WOULD BE WELDED DIRECTLY TO THE CROSSBRACING IN PLACE OF THE SUBSTRATE ALUMINUM CHANNEL AND SKATELITE SHOWN ABOVE.

# STEEL SKATEPARKS...

## ...FOR MAXIMUM DURABILITY

Ramparts offers a complete line of exciting skatepark obstacles sheeted with 7 Gauge galvanized steel. Each section is completely welded, which eliminates hardware from the skating section and provides maximum durability. Other companies offer a variety of thickness options for their steel sheeting whereas Ramparts standardizes on 7 Gauge galvanized steel sheeting. The result is a superior skatepark for your community. For maximum durability and less maintenance, choose Ramparts All-Steel Skateparks.

## ...PRECISION AND FLEXIBILITY

Ramparts offers a complete line of skatepark obstacles utilizing a composite surface known to the industry as Skatelite. This surface is traction friendly, does not retain water, and is quieter than steel. The Skatelite surface is available on all of our popular elements as well as on any of our custom design creations.

# PARK LAYOUTS

SK81016

## LAYOUT 1

AREA: 7200 sq ft  
PERIMETER: 120' x 60'

Manual Pad, Basic Bench, Step Bench, Picnic Table, Wedge, Round Grindrail, Square Grindrail, 2' FunBox with Deluxe Bench, 3' X 8' Quarter Pipe (2).

SK81038

## LAYOUT 2

AREA: 7500 sq ft  
PERIMETER: 75' x 100'

Round Grindrail, Square Grindrail, Kinked Grindrail, Step Bench, 3' X 8' Spine, 2' FunBox w/hips & Deluxe Bench, 3' X 12' Quarter Pipe, 3' X 8' Flat Bank.

## LAYOUT 3

AREA: 3500 sq ft  
PERIMETER: 50' x 70'

Kinked Grindrail, Square Grindrail, Deluxe Bench, Step Bench, Wedge (2), 3' X 8' Spine, 3' X 12' Quarter Pipe, 2' X 12' Flat Bank, 2' FunBox w/Deluxe Bench, 4' X 16' Quarter Pipe.

SK81048

## LAYOUT 4

AREA: 4250sq ft  
PERIMETER: 85' x 50'

Deluxe Bench, Wedge, Square Grindrail, Kinked Grindrail, Step Bench, 3' X 8' Spine, 3' X 12' Quarter Pipe (2), 4' X 8' Mellow Bank, 2' FunBox w/Square Grindrail.
